

Profitmetrics integrations guide

Smartweb / Scannet / Wannafind / Dandomain

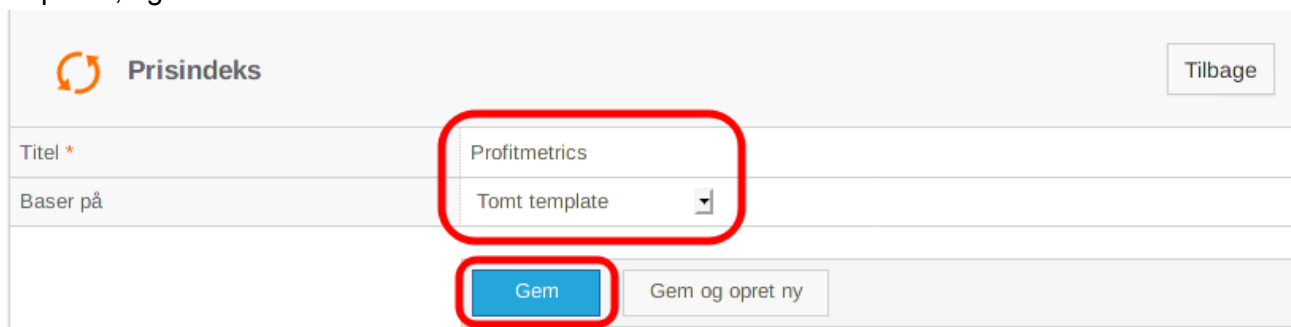

Opret feed

I menuen klik til Kontrolpanel – Webshop – Prisindeks
Klik på “Opret eget prisindex”

The screenshot shows the SMARTWEB control panel. On the left is a navigation menu with items like 'Leveringslande & moms', 'Leveringstider', 'Lagerlokationer', 'Enheder', 'E-mail tekster', 'SMS tekster', 'Udskrifts tekster', 'Affiliate marketing', and 'Prisindeks' (highlighted with a red box). Below the menu is an 'E-mail' section with 'E-mail konti' and 'Webmail'. At the top right, there are user options: 'Se min løsning', 'Brug for hjælp?', and a user profile for 'frederik sw63372'. The main area is titled 'Prisindeks' and contains a table with columns: 'Prisindeks', 'Status', 'Produkter', 'Indstillinger', and 'Prisfil'. The table lists 'Annonсыnd', 'EdbPriser', and 'Facebook Product Ads'. A blue button 'Opret eget prisindeks' is circled in red in the top right corner of the main area.

Udfyld feltet “Titel”, eksempelvis med “Profitmetrics”, og efter lad feltet “Baser på” som “Tomt template”, og klik da “Gem”

The screenshot shows the 'Prisindeks' form. The 'Titel' field is filled with 'Profitmetrics' and the 'Baser på' dropdown is set to 'Tomt template'. Both the input fields and the 'Gem' button are circled in red. A 'Tilbage' button is visible in the top right corner of the form area.

Kopier og indsæt så henholdsvis koderne fra profitmetrics felterne “Feed start template”, “Feed item template”, “Feed end template” og tryk så “Gem og gå tilbage, som indikeret nedenunder:

Titel	
Feed start template	<pre>42 { * The title of the website hosting the feed *} 43 <title><![CDATA[{\$contactdata.name toUTF8}]]></title> 44 45 { * The domain of the website hosting the feed *} 46 <link>{\$general.domain}</link> 47 48 { * Static title of the feed *} 49 <description>Feed for Google Shopping Ads</description></pre>
Feed item template	<pre>243 {/if} 244 { * End variant *} 245 </item> 246 247 {/foreach} 248 249 {/if} 250</pre>
Feed slut template	<pre>4 Is responsible for printing the end tag of the xml-feed 5 6 ## Date last modified 7 2016-04-16 8 9 *} 10 11 </channel> 12 </rss></pre>
<p>Gem Gem og gå tilbage</p>	

Klik da på fanebladet “Egne”, kopier linket “Prisfil”

Automatic Import Interval

When selecting the desired import interval please consider which frequency your feed actually updates

Disabled

Every hour

Every 2 hours

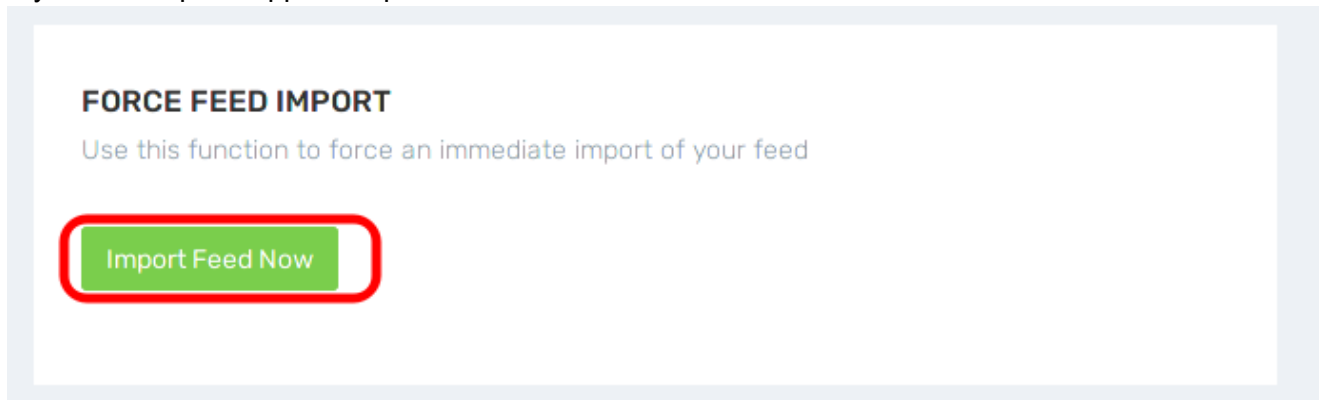

Every 6 hours

Every 12 hours

Every 24 hours

Save Feed Configuration

Tryk herefter på knappen "Import Feed Now"

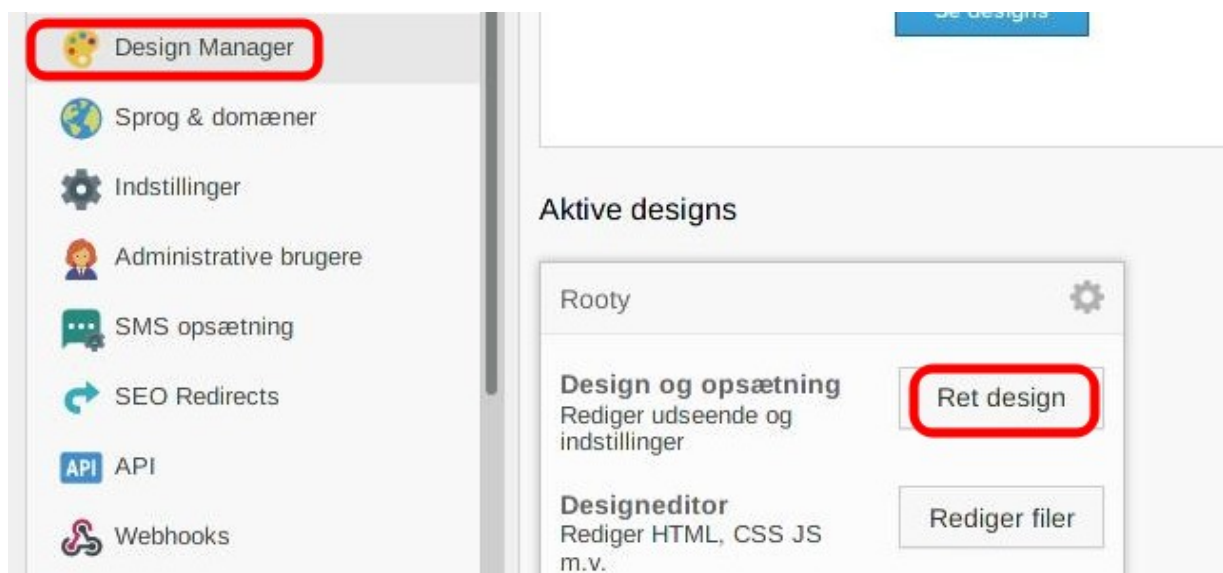

Du er nu færdig med opsætning af feed. Produkter og kostpriser hentes nu automatisk fra din shop

Indsæt Header script

I menuen klik til Kontrolpanel – Generelt – Design Manager

Klik på "Ret design"

Klik fanebladet “Indsæt Javascript”. Kopier og indsæt scriptet “All pages”, og tryk “Gem”

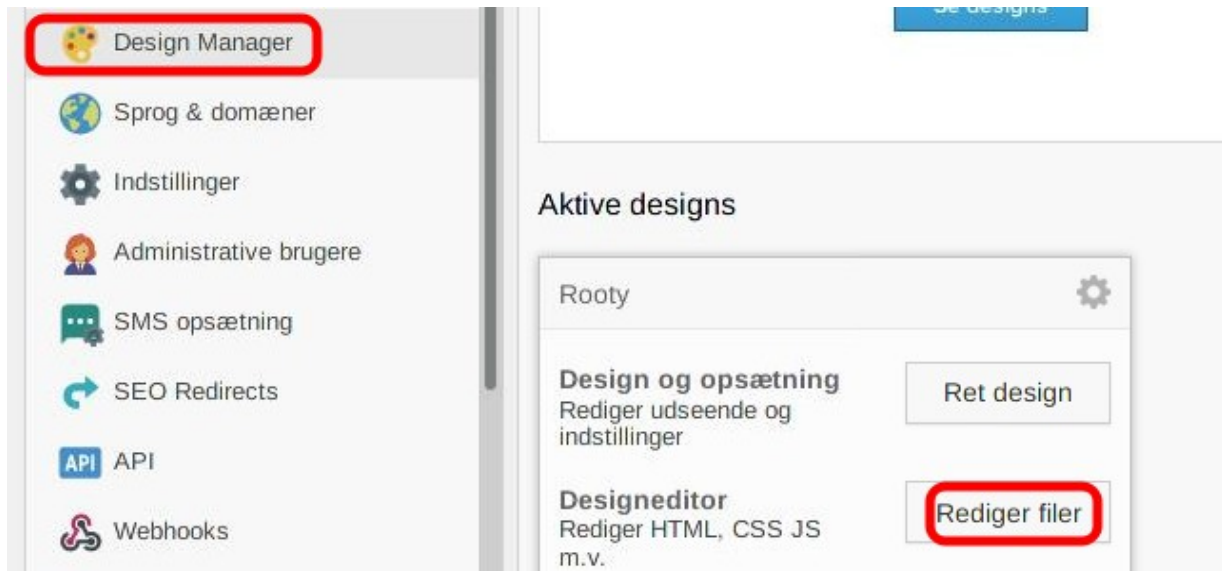

The screenshot shows the Design Manager interface. On the left is a sidebar menu with options like Webshop, Sidetræ, Moduler, Kontrolpanel, and Generelt. The main area has tabs for Opsætning, Struktur, Indsæt Javascript (highlighted), and Indsæt CSS. Below the tabs is a section for 'Sidens header' and a code editor for 'Javascript'. The code editor contains a JavaScript script for setting a cookie. The 'Indsæt Javascript' tab and the 'Gem' button at the bottom are highlighted with red boxes.

```
pmGetGacid = encodeURIComponent( gacid / + , path= / ,  
    });  
    } catch( eee ) {  
    }  
    } else {  
        setTimeout( pmGetGacidIntoCookie, 100 );  
    }  
}  
pmGetGacidIntoCookie();  
</script>
```

Indsæt Ordrebekræftelses script

I menuen klik til Kontrolpanel – Generelt – Design Manager

Klik på “Rediger filer”

The screenshot shows the Design Manager menu on the left, with 'Design Manager' highlighted. The main area shows 'Aktive designs' for 'Rooty'. There are two design entries: 'Design og opsætning' with a 'Ret design' button, and 'Designeditor' with a 'Rediger filer' button. The 'Rediger filer' button is highlighted with a red box.

I filviser komponenten til venstre navigeres til check-approved.tpl filen som klikkes på og åbnes. Derefter indsættes koden “Checkout page script” i bunden, og der trykkes “Gem”

Du er nu færdig med integrationen.
